SUBJECT INDEX, VOLUME 46

Adrenal
epinephrine and work performance, 14
and stress, 21
biological properties of desoxycorticosterone, 30
and glycosuria, 67
and histamine, 124
of the golden hamster, 166
maintenance by pituitary grafts, 191
transplants, 228
salt requirements of wild rats, 233
and water metabolism, 307
ascorbic acid in chick, 314
effect of sesame oil on, 327
and reabsorption of glucose, 338
phosphatase of, 363
vascular-renal effects of, 367
maturation of, 420
effect of radiation sensitivity, 434
cortisone and urinary metabolites, 510
ascorbic acid and stress, 526
and wound healing, 544
and lymphocytes, 552
Alloxan
diabetes and SH groups, 1
and guinea pig pancreas, 135
Ascorbic acid
and adrenals, 253
failure of depletion after epinephrine in chick's adrenal, 314
of adrenal after stress, 526
Assay
of thyrotropin in sera, 39
of thyroid by closed vessel technic, 122
of dehydroisoandrosterone, 207
of proteolytic activity of thyroid, 353, 359
Association Notice, 133

Blood
thyroid and thyrotropic hormones, of, 39
antidiuretic hormone, 215
disappearance of adrenotrophin from, 261
lipids and stilbestrol, 375
cells after adrenal steroids, 552
anemia after hypophysectomy, 586
Book Review
Grinker and Bucy, Neurology, 4th Ed., 132

Carbohydrate metabolism
and work performance, 14
and insulin, 55
during stress, 67
histamine and glucose tolerance, 124
after alloxan in the guinea pig, 135
desoxycorticosterone and glucose reabsorption, 338
in diabetes, 505
glycogen synthesis and hormones, 574, 582
Carcinoma
effect of cortisone upon, 510
Connective tissue
effect of testosterone upon, 291
effect of estrogen upon, 299

Diabetes
effects of alloxan, cystine and methionine on, 1
effect of steroids upon, 111
caused by alloxan in guinea pig, 135
and growth hormone, 273
of 12 years' duration in a dog, 282
antidiabetic effect of insulin, 319
and histochemistry of liver, 334
caused by growth hormone, 589
work performance in, 505
Diet
cystine and methionine deficiency, 1
pteroylglutamic acid and endocrine glands, 156
and maintenance of adrenal cortex, 191

vitamin A and thyroid, 404
and anemia after hypophysectomy, 586

Enzymes
of liver in diabetes, 334
protolysis in thyroid gland, 353, 359
phosphatase of adrenal, 363
effects of steroids upon, 387

Fat
storage and insulin, 55

Histochemistry
of adrenals in stress, 21
of adrenal of hamsters, 166
phosphatases during alarm reaction, 243
of adrenals after stilbestrol, 253
of liver in diabetes, 334
of testis, 341, 347
of adrenal, 363
of mammary gland, 426

Insulin
and storage of glycogen and fat, 55
effect of steroids on diabetes, 111
antidiabetic effect on nitrogen, 319
and glycogen synthesis, 574

Kidney
and water metabolism, 307
reabsorption of glucose and adrenal, 338
effects of adrenal upon, 367

Liver
enzymes in diabetes, 334

Mammary gland
iron content of, 426

Ovary
effect of picrotoxin and copper upon, 177
transplants of in monkeys, 265
estrogen and follicle development, 407, 414
Ovulation
induced by picrotoxin and copper, 177
in hens after pituitary extracts, 482

Pancreas
alloxan diabetes and SH groups, 1
and storage of glycogen and fat, 55
effect of steroids on diabetes, 111
alloxan diabetes in guinea pig, 135
Pituitary
ACTH and stress, 21
thyrotropin in sera, 39
pathology after radioiodine, 91
effect of picrotoxin and copper upon, 177
and maintenance of adrenal glands, 191
antidiuretic hormone, 215
disappearance from blood of adrenotrophin, 261
growth hormone and diabetes, 273
adrenotrophin and ascorbic acid in chick's adrenal, 314
maturation of pituitary, 420
ovulation in hens, 482
estrogens and cytology of, 494
growth hormone and diabetes, 589
activation by epinephrine, 536
FSH in sheep and hog, 563
and glycogen synthesis, 582
and anemia, 586

Radioiodine
and thyroid pathology, 72

Sexual activity
testosterone and, 447
Spermatogensis
effect of androgen upon, 453
Spleen
transplants of ovaries in, 265
ovarian grafts in, 407, 414
Steroids
biological activity of desoxycorticosterone glucoside, 30
metabolism of dehydroisoandrosterone, 105
and diabetes, 111
metabolism of steroids, 127
colorimetric method for dehydroisoandrosterone, 207
effect on connective tissue, 291, 299
and adrenal phosphatase, 363
and lipids, 375
and oxidation of tissues, 387
conversions of, 403
and follicular development, 407
comparative action of, 441
effect on sexual activity, 447

androgens and spermatogenesis, 453
and pituitary cytology, 494
metabolism of 13 compounds, 514
and wound healing, 544
and lymphocytes, 552
Stress
and adrenals, 21
and glycosuria, 67
and phosphatases, 243

Testis
cholesterol of, 341, 347
Thiouracil
and vitamin A requirement, 404
Thyroid
hormones in sera, 39
pathology after radioiodine, 72
pituitary changes of the radioiodine, 91
test for activity of, 122
proteolytic activity of, 353, 359
lipotropic action of, 382
effects of ultrasonics upon, 387
reactions of grafts of, 397

Urine
antidiuretic hormone, 215
constituents after cortisone, 510
Uterus
endocrine effects on deciduoma formation, 489

Water metabolism
and adrenal cortex, 307
